2012 Income Distribution	2.00 cpu
Fund Classification	SA Equity General
Portfolio manager	Dave Eliot & Chris Botha
ISIN Code	ZAE000118410

Portfolio Objective

The Imara MET Equity Fund is a general equity portfolio. The Fund largely mirrors the successful Imara Houseview investment policy and may consist of financially sound equity securities, property shares and property related securities listed on exchanges and assets in liquid form. In selecting securities for this portfolio, where possible, the manager shall seek to sustain high long-term capital growth.

Managers Comment

The fund returned -2.1% for the month compared to -1.3% for the JSE All Share mainly due to underperformance from resource counters.

The global backdrop will continue to be bullish for equities, despite some markets having reached record highs. We expect continued improvements in corporate profits due to record low interest rates and no growth in labour costs. Profit margins will more than likely continue to improve which will support our view that equities will continue to rise but at a more gradual pace.

The outlook for global economic growth continues to improve, particularly in developed markets. Global inflation remains very subdued with deflation still a material risk despite the current growth trends. We therefore expect easy money and excess liquidity to be around for a while.

The JSE All Share reached yet another high in early November after some dovish comments by the Fed around tapering. Reported results by listed companies continue to appear very robust and are supportive of current valuations.

Industrial action in the motor and related industries had a severe impact on industrial output in the third quarter. SA's economic growth slowed to 0.7% from 3% in the second quarter. This is the lowest recorded number in four years.

The single biggest risk to our market remains the exodus of portfolio flows if and when tapering occurs but will in our view be a short term knee-jerk reaction as tapering will signal better underlying economic conditions which should bode well for equities over the medium to long term.

*Performance: 30/11/2013

	FUND	B/MARK
1 year (annualised)	20.18%	21.64%
2 year (annualised)	24.35%	20.72%
3 year (annualised)	20.19%	17.62%
5 year (annualised)	20.56%	19.58%
Since inception (annualised)	15.31%	8.97%

Collective Investment Schemes (CIS) in securities are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. All CIS are traded at ruling prices and can engage in borrowing and scrip lending. A schedule of fees and charges and maximum commissions is available on request. Commission may be paid and if so, would be included in the overall costs. Forward pricing is used. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. MET Collective Investments Limited reserves the right to close and reopen certain portfolios from time to time in order to manage them more efficiently. The Fund may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. Different classes of participatory interests apply to certain portfolios, which are subject to different fees and charges. Performance figures quoted are from Morningstar/MoneyMate, as at the date of this factsheet for a lump sum investment, using NAV-NAV prices with income distributions reinvested. Service charges and investment manager charges are calculated and accrued on the daily market value of the investment and paid out monthly. MET Collective Investments Limited is the Manager of the MET Collective Investments Scheme, and a full member of the Association for Savings and Investment SA. Although reasonable steps have been taken to ensure the validity and accuracy of the information in this document, MET Collective Investments Limited does not accept any responsibility for any claim, damages, loss or expense, howsoever arising, out of or in connection with the information in this document, whether by a client, investor or intermediary. This document should not be seen as an offer to purchase any specific product and is not to be construed as advice or guidance in any form whatsoever. Investors are encouraged to obtain independent professional investment and taxation advice before investing with or in any of MET Collective Investments Limited's product.

November 2013

Total Expense Ratio (TER)

	Class A
Portfolio ongoing fee	1.50%
Portfolio costs	-0.02%
TER - excluding performance fees	1.48%
Performance fees	0.00%
VAT	0.21%
Total TER - incl VAT	1.69%

Please note: the TER has been calculated using data from 1 October 2012 until 30 September 2013. The TER is disclosed as % of the average Net Asset Value of the portfolio that were incurred as charges, levies and fees related to the management of the portfolio and underlying portfolios. The TER is adjusted for significant subsequent portfolio restructurings and/or fee changes.

A higher TER ratio does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER can not be regarded as an indication of future TER's.

FAIS Conflict of Interest

Please note that in most cases where the FSP is a related party to Imara Asset Management Pty (Ltd) and/or MET, Imara Asset Management Pty (Ltd) and/or the distributor earns additional fees apart from the FSP's client advisory fees. It is the FSP's responsibility to disclose additional fees to you as the client.

Such fees are paid out of the portfolio's service charge and ranges anything between (excl VAT):

MetCI	Imara Asset Management Pty (Ltd)	Distributor	LISP	Service Fee (Excl. VAT)
Up to 0.30%	Up to 1.20%	Up to 0.00%	Up to 0.00%	1.50%
